Letter of recommendation

I have been teaching Yu Lan piano playing at the Royal Academy of Music in Aarhus since december 2016. I have heard her perform in 3 concerts and in my masterclass in autumn 2016. Based on this I can make the following statement :

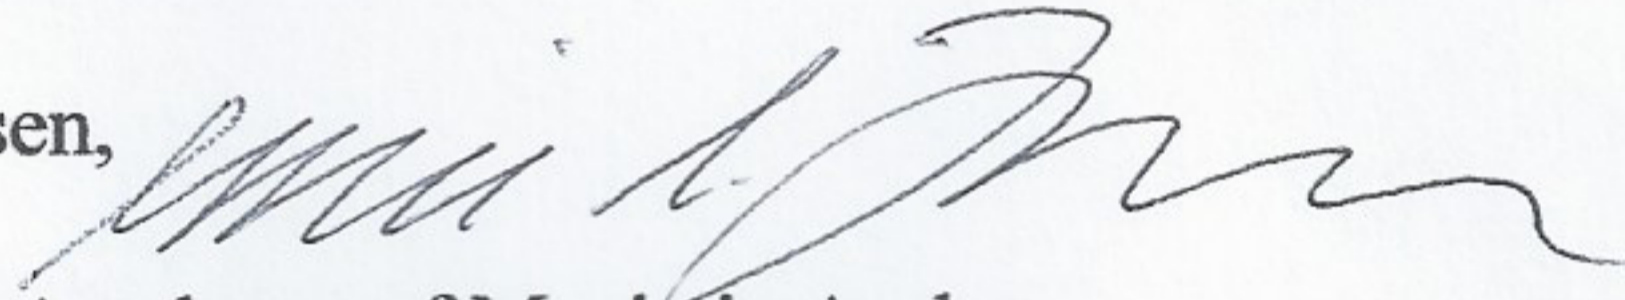

Yu Lan is in my opinion a very gifted young pianist with a good pianistic basis and a well developed musical understanding. She posses a strong energi, intelligence, temper and wish to express many nuances in the music.

Besides this she a very serious student, who prepares well for the lessons and always works with determination and showing willingness to learn.

Yu Lan seems to me as a very clearheaded, wellstructured and ambitious young lady and I am sure she will work hard to achieve her goals and to develop her talent for music and pianoplaying.

I give Yu Lan my warmest recommendations!
