

RECOMMENDATION

To Whom it May Concern

I taught pianist **Yu Lan** during one school year when she was an exchange student at the Sibelius Academy of the University of the Arts Helsinki. Artistically, her playing is of a very high quality and her performances are always personal and musically interesting. She has natural, instinctive musicality and an accomplished technique. I think she has an inborn ability to connect with people of any age. She is also a wonderful pedagogue. I am very happy to recommend her for any support.
